Although the original Communist Party of China was manipulated by agents in Moscow and the Soviet Union, it was made up of a group of knowledgeable and aspiring young people who wanted to change behind China.

Since being hijacked by Mao Zedong — a group of bandits, soldiers, gangsters, and two streams (see Mao Zedong Collection, Chen Duxiu Collection) replaced professors and university students, the CCP became an anti-cultural, anti-order, anti-intellectual, anti-ethnic, anti-national, anti-national, anti-national, anti-national, anti-national, anti-national,

anti-national, anti-national, anti-national, anti-national, anti-state representative Report of the Communist Party Central Committee to Stalin, Liu Shaoqi since its founding (Document 2005.4) Since then, intellectuals have been fooled, enslaved, persecuted, killed for a long time.

Mao Zedong's "Analysis of All Classes of Chinese Society" is a reactionary program against knowledge and intellectuals; while he goes to Jinggangshan, grabbed the knife, until he went to Marx, he did not stop killing: killing AB regiment, trust, Yan'an rectification wind, violent land reform, town, Reverse Revolution, 35th Anti-Hu, Anti-Hu Feng, Clear Anti-Revolution, Anti-Right, Three Red Flags (Holofamine), Siqing, Cultural Revolution (Cultural Revolution also contains many movements - batch "three villages", sweep "four old", approved Liu Deng reactionary route, anti-"February countercurrent", "January storm", "fight against reform", clean up class team, inventory "5,16", knowledge youth up to the country...), dying And a "four. five days of Anmen"... almost all the movements he launched in his life were dealing with knowledge. Molecules.

The anti-right movement, on the other hand, is a catastrophic event that has been the worst, worst affected and worst affected. This movement has not only created 1.8 million to 3.1 million people from all walks of life, including cadres of the Communist Party, political and military cadres, to become untouchables, intellectuals from this point of view, and hold signs of "people" and "republican" The People's Republic of China has become a complete and complete "Party World", "Home World", the country's political culture, science and technology are stagnant and long lagging behind, people are poor and ignorant, and the integrity of the Communist Party is bankrupt, and the legitimacy of the Chinese Communist Party's rule is gradually eroded.

As Mao Zedong's successor, Deng Xiaoping, was the number one thwarder of the anti-right movement, and his hands were stained with blood, and he refused to die for the right, and still insisted on the Mao Zedong line, and described the anti-right movement as "necessary", and only "enlarged". In 1989, simply drove the tank car into Beijing City, creating a blood-washing Tiananmen Square incident that shocked China and abroad, completely exposed his reactionary stance against the people.

The bloody history and current situation prove that this era is an era of destruction of culture, destruction of youth, destruction of education, destruction of universities and the destruction of the future. As far as a billion "big population power", for 70 years, there were no Nobel prizes in science and technology, except for two "political prisoners" as Nobel Peace Prize winners, a literary prize for "not speaking", and a three ladies who won chemistry prizes.

"Save memory, save history", let us have solid evidence to tell our descendants that there can be no longer such so-called political movements that harm the people and the nation of the country.

History and reality tell us that every time the crow is silent, it is a great disaster. Only when the people are truly oriented will there be long-term peace and security.

Democratic supervision and sunshine policy are to ensure that officials and ordinary people at all levels can enjoy freedom from fear. In order to protect officials and national elites at all levels from becoming Liu Shaoqi, Zhao Ziyang, Bo Xilai, Wang Lijun, Sun Lijun, Sun Lijun.

The Chinese Communist Party authorities should learn about the courage and courage of the KMT, change its course, abandon the theory of Marez Mao's meat hinger with “struggle, killing” as its core, and speeding up the pace of political reform.

A special committee was set up in the National People's Congress and the CPPCC to thoroughly expose the reactionary lines and crimes that criticize Mao Zedong and his group of authoritarian selling countries, apologize, plead guilty and make reasonable compensation to the victims of all movements, including the anti-right movement.
