

Mr. Yang Xijiu
"New Year Kangtai"

Yi Sanhao, your hard work for the victims of May 7, let us and our children be grateful for a lifetime.

I went through Marne last year and now I look through Les. Mao Deng completed it as

early as 2009. In this way, combined with the ins and outs of socialism that began in

Moore over the past 500 years, it is clear who is right and who is wrong.

I have lived in the society of the Republic of China for 18 years. Sweet and sour

bittersweet have a personal experience. Later, he lived in "New China" for 70 years and

had a profound understanding of totalitarian communism. In the 1950s, he studied

political economy for seven years and also had a certain indirect understanding of

capitalism. In this way, if I am blessed by God for another three years, I will write out a

knowledge of myself for posterity.

Thank you again! You have the hope of China and made great achievements for the

Chinese nation. Thanks G (Minato) people!! Hats off to all of you!

Today I left a message in the WeChat you group of rebirth:

Young and old, young and young, ladies and gentlemen: Happy Chinese New Year, all

the best. The mountain to the end has its own road, the water to the bridgehead boat

straight. Welcome the future with pride! Confidence can overcome all diseases!

Optimism is health!
